CERTIFICATE OF MAILING

Honorable Assistant Commissioner for Patents

On August 13, 1998, applicant filed an *Information Disclosure Statement* and PTO 1449 Form in the above-identified application.

Upon review of the references cited, it was noted that the description of Japanese Patent Document 2-251992 was incorrect and the Examiner is asked to please disregard the brief description of Japanese Patent Document 2-251992 cited in the *Information Disclosure Statement* filed August 13, 1998. Rather, submitted herewith is an English translation of Japanese Patent Document 2-251992 which was listed on the PTO 1449 Form for consideration by the Examiner.

Further, the brief description of Document 2-251992 cited in the *Information Disclosure Statement* filed August 13, 1998 should have been directed to Japanese Patent Document 1-289917. That is, Document 1-289917 teaches to manufacture a peripheral circuit and active matrix circuit elements through the same process. Also, Document 1-289917 is the priority application of U.S. Patent 5,250,931, which was also submitted for consideration by the Examiner.

Respectfully submitted,

Eric J. Robinson
